

Candidate Statement

ERIC COLEBORN

I am very proud to have served on the board as the liaison between the presidents and the Trust. Co-opted on to the trust board 2 years ago I have worked on improving all aspects of our great club.

I strongly believe that we are the greatest football club in the world! That is because we have the greatest fans in the world, YOU!

It is very easy to support a successful side but when your team is falling down the leagues and goes into administration with huge debts and the plug is about to be pulled, then you find out how great your supporters are.

I worked for the club in the late 70's and early 80's in the commercial department, starting the original Pompey Lottery in 1978 and running the special trains to away games when we were in the old 4th division. I also worked on the programme, advertising, sponsorship, young blues and hospitality in my time at the club. Using that knowledge I have tried to support the club's staff in their goal to improve everything we do for our supporters.

As we enter into an exciting new era it is vital that we as a trust keep working to improve everything we can and to encourage old and new supporters to OUR club. There is nothing like a full Fratton Park for atmosphere as we all know! I hope you will support me to work on the Trust board and continue the job of taking OUR great football club forward both on and off the pitch.

Play Up Pompey!
