

CANDIDATE STATEMENT

IAN LIMB

My name is Ian Limb - I am 55 years of age and have been a Pompey supporter since the mid 1970's and have seen the lows, highs, lows, highs etc etc etc. Both my sons (22 and 12 year old) are also avid Pompey fans.

I have recently taken early retirement after 39 years working for Portsmouth Water. I held a senior executive position within the company holding the position of Head of HR. Within this role I had responsibility for all HR matters and Health, Safety and Well-being along with all communication activities (both internally and externally) and community activities.

Within this role I had to successfully deal with all stakeholders from staff, trade unions, customers, regulators etc which has formulated my approach in that communication is the key to achieve anything. It will be this approach I hope I can bring to the PST. An ability to work with all PFC stakeholders, including many with differing views- to achieve a common goal- the betterment of PFC.

I now have time to put something back and see any potential involvement in the PST as an avenue where I may be able to use my business experience to help support the PST. The PST will always have the ultimate lasting legacy in how they helped save the club. The key now is how the PST becomes a legacy going forward in the future of PFC.

This can happen with positive dialogue with both the club and of course the PST members where the PST can be a positive conduit in reflecting views of the membership - which are often varied !!!

Members can see my activity on twitter @Limmy05 where you can see I do like to express my opinion but hopefully in a way that shows respect to all. There are supporters I disagree with on certain issues but I like to have dialogue - I do not for example unfollow just because I disagree !!!

I do not have any personal agendas in wishing to stand for the PST board apart from a genuine belief that I can add value to the future of the PST.
